EDUCATION

Full Stack Software Development Bootcamp
University of California, Irvine

04/2018 – 10/2018   *Irvine, CA*

– Full Stack Flex web development program that taught the key skills for front-end and back-end development.

B.G.S. Management
Brigham Young University, Utah

09/2011 – 12/2016   *Provo, UT*

– Gained general business knowledge such as accounting, finance, marketing, etc.

WORK EXPERIENCE

Junior Software Enginneer
U.S. Wheel Corporation

08/2017 – Present   *Huntington Beach, CA*

– Currently applying my education from UCI to improve business operations. For example, I set up a local Ubuntu server to store all outgoing shipments in a SQL database and I built a local web application for employees to search all recent shipments.
– Managing the tire inventory system, assist with the order entry process by building automated systems using Excel VBA to increase order accuracy, and prepare detailed sales and inventory reports also using Excel.
– Working with anything technology-related such as setting up and troubleshooting computers, managing printers and devices, or building custom software to integrate legacy systems with modern technology.
– Supporting the overall technology and business needs of the company.

SERVICE

The Church of Jesus Christ of Latter-day Saints
– Actively participate in church service positions such as teacher, secretary, counselor, etc.
– Served as a church representative in Europe from 2009 - 2011. Supported local members in areas of Switzerland, France, Luxembourg, Belgium, and Germany.
